September 1979

SPECIAL INTRODUCTORY TRADE-IN OFFER

Please review the attached SUN 1215 Computer II brochure. Complete diagnosis data of the engine, within three minutes, is as simple as one, two, three.

In conjunction with the introduction of the Computer II, Sun Electric has established a limited time trade-in offer (flyer attached), so you can update your equipment at a tremendous savings. This limited time trade-in allowance will be deducted from the cost price. Also, Jaguar Rover Triumph Inc. has arranged, with Sun Electric, to extend the limited time trade-in offer to November 1, 1979 (suggested list price of the Computer is \$14,860.00).

In addition, Jaguar Rover Triumph Inc. has been able to obtain, for our dealers, a 15% discount instead of the normal 10% for this introduction and this discount will apply to all future purchases, of all Sun equipment.

Equipment to be traded in, is to be shown on the face of your Purchase Order.

Demonstration of the Computer II can be arranged directly with your local Sun Representative or contact your Zone/Distributor.
